

### Fisheries Technician - Summer Employment

Deuchler Environmental, Inc. an environmental consulting firm in Aurora, Illinois is seeking a Fisheries Technician to assist our Fisheries Biologist during the 2012 sampling season.

Primary role will be assisting with fish collection and identification, equipment preparation, and data entry. Job duties also include macroinvertebrate collection, mussel collection, and water quality work.

Job entails extensive field work. This position is a paid hourly wage position only. No stipend for housing or other expenses is offered.

#### Qualifications:

- . Ideally available from May 1, 2012 to October 31, 2012. However, we may accommodate a current student's school schedule.
- . Available to work long hours and occasional weekends. Must be flexible with work times and days.
- . Current student or graduate with biology background.
- . Field experience and heavy lifting is required.
- . Boating and trailering experience is required.
- . Electrofishing experience is preferred.

Please provide resume and detail of relevant experience in a cover letter to Karen Clementi at:
